

Firme esta petición con su organización o motive a sus organizaciones a firmarla.

Cuanto mas organizaciones firmen, tanto más fuerte será el llamamiento contra los plaguicidas altamente peligrosos.

Convocatoria

Por la prohibición de los plaguicidas altamente peligrosos

Décadas de experiencia han mostrado que un uso seguro de los plaguicidas altamente peligrosos no es posible, a pesar de los muchos programas para un “uso seguro”. Todavía existen seres humanos, ganado, animales silvestres y naturaleza que sufren daños graves a causa de los plaguicidas altamente peligrosos. Después de décadas de fracasos que cobraron millones de muertos en todo el mundo, cada vez se hace más necesaria una nueva política para detener la intoxicación por plaguicidas. La reducción progresiva del uso y la prohibición de los plaguicidas altamente peligrosos, así como una nueva política para el fomento de alternativas, pueden impulsar un cambio hacia un mundo sano y sustentable.

Nosotros, las organizaciones firmantes, apelamos a los gobiernos y a la iniciativa privada a realizar pasos concretos hacia una prohibición progresiva de los plaguicidas altamente peligrosos e iniciar su sustitución por alternativas basadas en los ecosistemas.

Antecedentes

En el 2006, el Consejo para la Alimentación y Agricultura (FAO) de la Organización de las Naciones Unidas, recomendó, junto con las medidas para la reducción de riesgos de plaguicidas, considerar también una prohibición progresiva de plaguicidas altamente peligrosos. PAN International acoge esa recomendación.

Un comité de expertos de la FAO, la Organización Mundial de Salud (OMS) y el Joint Meeting on Pesticide Management (JMPM), desarrolló en consecuencia una lista de criterios como base para poder identificar a los plaguicidas altamente peligrosos.

Sin embargo, PAN identificó algunas debilidades graves en la lista de criterios (por ejemplo, no incluye criterios referidos al medio ambiente). En consecuencia PAN ha decidido elaborar una lista propia sobre los plaguicidas altamente peligrosos. Esta lista „PAN International List of Highly Hazardous Pesticides“ fue elaborada por PAN Alemania para PAN International, publicada por primera vez en 2009, fue actualizada varias veces y después de cinco años de su existencia, se revisó a fondo por un grupo de trabajo de PAN International. La versión actual es la de junio 2014 (ver link en la página siguiente). La lista de PAN de los plaguicidas altamente tóxicos puede ser usada por todas las personas, instituciones, organizaciones y empresas para identificar plaguicidas altamente peligrosos y para tomar medidas para la reducción de su aplicación.

Actúe !

Por favor encárguese de que también su organización firme esta petición o motive a su organización a firmarla.

Un breve mail con la notificación de la firma a [carina.weber \(at\) pan-germany.org](mailto:carina.weber@pan-germany.org) es suficiente.

Cuanto más organizaciones firmen, tanto más fuerte será la demanda para poner fin al uso de los plaguicidas altamente peligrosos. Entre más fuerte sea la demanda, más rápidamente las intoxicaciones por plaguicidas podrán ser impedidas en el futuro.

Utilice esa petición, para agregarle énfasis en su exigencia de un fin al uso de plaguicidas altamente peligrosos.

Pesticide Action Network (PAN)

El Pesticide Action Network (PAN) es una red global de mas de 600 organizaciones no gubernamentales y personas en mas de 90 países, que se movilizan contra el abuso de plaguicidas peligrosos y por sistemas alternativas de cultivo basados en el cuidado de los ecosistemas. PAN fue creado en 1982 como organización descentralizada y tiene cinco centros regionales independientes cooperantes.
